MAY 2011

EXCELLENCE in education, research, scholarship and creative endeavor defines a great university and is affirmed by the recognition of its individual members by the distinguished national academies, institutes and societies.

Your election to membership in one or more of these prestigious scholarly organizations demonstrates the significance of your ideas and discoveries over a sustained period and the high regard in which you are held by your national and international peers. Your achievements are also an enormous source of pride for Cornell and contribute to our university's stature as one of the world's great research universities.

On behalf of the entire Cornell community, I congratulate the new members of the distinguished academies and thank all of you for your outstanding professional achievements and your commitment to our students, our university community, our nation, and the world.
